

PRODUCT INFORMATION

CVP-505

Synthetic Blower Lube

CVP-505 is a full synthetic lubricant formulated to provide maximum lubrication protection of gears and seals for most vacuum pumps and blowers. Advantages over petroleum lubricants include extended life, reduced operating temperatures, better corrosion protection, enhanced low and high temperature lubricating properties, reduced wear and lower maintenance costs.

SPECIFICATIONS

| | |
|-------------------|--------------------------|
| Vapor Pressure | $<1 \times 10^{-3}$ Torr |
| Viscosity @ 40°C | 206 cSt |
| @ 100°C | 23.4 cSt |
| Flash Point (COC) | 246°C/475°F |
| Pour Point | -43°C/45°F |
| Specific Gravity | 0.869 |

APPLICATIONS

Positive displacement blowers (Roots, Gardner-Denver, Sutorbilt)
Replacement for Busch R-130.
