

## PRODUCT INFORMATION

# CVP-187

### Mechanical Vacuum Pump Fluid

**CVP-187** is a high quality hydrocarbon fluid specifically designed to combat sludge and varnish formation and the accumulation of particulate in mechanical vacuum pumps. It will also effectively neutralize the acid content of the fluid thus reducing the corrosive wear on bearings and other internal components. The use of this fluid with proper changes will result in a clean pump with extended drain intervals.

#### SPECIFICATIONS

Vapor Pressure	< 10 <sup>-3</sup> Torr
Viscosity @ 100°F	117.6 cSt/ 545 SUS
@ 210°F	17.2 cSt/ 87 SUS
Flash Point (COC)	230°C/446°F
Pour Point	-21°C/ -6°F
Specific Gravity	0.89

#### APPLICATIONS

Vacuum Heat Treating, Vacuum Metallizing, Vacuum Melting and Brazing, High Temperature Vacuum Applications.

The information and data contained herein are believed to be accurate and reliable; however, it is the responsibility of the user to determine suitability of use.
