

PRODUCT INFORMATION

Vacuum Grease

Silicone High Vacuum Grease

CVP-9020 silicone vacuum grease is ideally suited for all high vacuum applications with pressures as low as 10^{-8} . It has good lubricating and sealing ability, resistance to water and chemicals and high and low temperature stability.

SPECIFICATIONS

Specific Gravity	1.04
Color	Translucent
Consistency	Medium
Evaporation	2.0% max.
Service Temperature Range	-40°C to 232°C

Krytox[®] High Vacuum Grease

Krytox[®] LVP grease is manufactured with extremely low vapor pressure perfluoroalkylpolyether oil for use in high vacuum systems at operating pressures down to 10^{-12} torr. It is non-flammable and has a high degree of chemical inertness and thermal stability.

SPECIFICATIONS

Specific Gravity	1.94
Color	White
NLGI Consistency Grade	2
Evaporation	0.3%
Service Temperature Range	-20°C to 260°C
