Vacuum Pump Oil Test Kit

*Save and protect your
Vacuum Pumps!*

Not Litmus paper a true chemical test.

! TEST THE OIL!

A simple test of the oil with a CVP Acidity Test Kit can signal you as to the condition of the oil and how your process affects your pump.

720 S, West Boulevard

Vineland New Jersey 08360

www.cumberlandvacuum.com

Simply follow these steps:

1. Remove one vial from the kit
2. Fill the vial with your pump fluid
3. Shake the vial
4. Read the color

What could be simpler?

GREEN-Fluid is neutral
YELLOW-Slightly acidic
ORANGE-Change filters and test again
RED
Change Oil & Filters

**All products are field tested and approved
to meet or exceed the OEM specifications.**
